-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 35-37 have been withdrawn.
2. The indicated allowability of claims 12-31 is withdrawn in view of a final review and analysis of the claims at issue. Rejections based on that analysis follow.
3. Claims Directed to an Apparatus must be distinguished from the prior art in terms of structure rather than function, *In re Danly* 263 F.2d 844, 847, 120 USPQ 582, 531 (CCPA 1959).

A claim containing a "recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus" if the prior art apparatus teaches all the structural limitations of the claim. *Ex parte Masham*, 2 USPQ2d 1657 (bd Pat. App. & Inter. 1987). Thus the structural limitations of claims 12-26, including a processor and a first storage device are disclosed in Garback (5,237,499), see figure 1 (22) as described herein.

A claim containing a "recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus" if the prior art apparatus teaches all the structural limitations of the claim. *Ex parte Masham*, 2 USPQ2d 1657 (bd Pat. App. & Inter. 1987). Thus the structural limitations of claims 27-31, including a processor, a first storage device, and a second storage device are disclosed in Garback (5,237,499), see figure 1 (22, 14) and column 2, lines 28-39 as described herein.

Also as described the limitations of the claim do not distinguish the claimed apparatus from the prior art.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 12-31 rejected under 35 U.S.C. 102(b) as being anticipated by Garback (5,237,499).

As per Claim 12.

Garback ('499) discloses a processor, and a memory see figure 1 (22,) and column 2, lines 28-39.

As per Claim 27.

Garback ('499) discloses a processor, see figure 1 (22), a first memory, see figure 1(14) and column 2, lines 28-39 and a second memory, see figure 1 (22).

As per Claims 13-26 and 28-31.

The claims add no additional structure and are rejected for the reasons above.

Allowable Subject Matter

4. Claims 1-11, 32-34 are allowed.

5. The following is an examiner's statement of reasons for allowance:

As per Claims 1, 32.

The prior art of record, specifically Garback ('499) in view of DeLorme et al ('040) further in view of DeMarcken ('808) does not disclose or fairly teach:

computing an optimal arrival time from the activity start time, the activity location and the first airport;

identifying an optimal ground transportation option between the first airport and the activity location; and

providing an optimal trip option for transportation from the origin location to the activity location, wherein the optimal option includes the first identified operating flight and the optimal ground transportation option.

The claims that depend from the above are allowed for the same reasons.

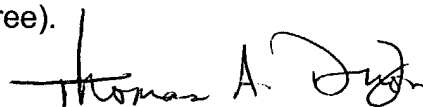

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas A. Dixon whose telephone number is (703) 305-4645. The examiner can normally be reached on Monday - Thursday 6:30 - 4:00.
